

C\_ExpectCovarInfluence

```
graph LR; R[R_ExpectCovarInfluence] --> C[C_ExpectCovarInfluence]; R --> ncol[ncol]; R --> nrow[nrow];
```

The diagram illustrates a central node, **R\_ExpectCovarInfluence**, which is shaded gray and has three outgoing arrows. One arrow points to **C\_ExpectCovarInfluence** (top right), another points to **ncol** (middle right), and a third points to **nrow** (bottom right). All nodes are rectangular boxes with black outlines.
